The Air-conditioned Reading Hall of library can accommodate around 120 members at time. The RIT library has been subscribing many on-line databases include ScienceDirect, IEEE, ASCE, ASME, Springer, Mc-Graw Hill, J-Gate Plus, ASTM Digital Library, NPTEL etc. The library has institutional membership with DELNET.

## ABOUT THE WORKSHOP

Researchers publish their research findings mainly in the form of articles / papers in scientific and technical journals. Scientific papers are considered as an important indicator to measure the research output / performance of an individual, institution and also a country. This indicator is directly linked to the career of an individual researcher and an institution for getting funds, recognition etc. 'Publish or Perish' is the order of the day. There are several tasks involved in the process of publication such as contents of scientific paper, referencing styles and tools, citation databases, publishing ethics and plagiarism, choosing right journal, Impact Factor and H Index etc. To impart greater awareness about the issue of Intellectual Property Right (IPR), which is gained a special importance for all the domains. This two day national workshop provides a platform to the participants to discuss all the above said issues.
