

7.1.6 Any other Relevant Information:

The college's campus has the necessary environmental approval from the TNSEIAA, and the Tamil Nadu Electrical Inspectorate conducts recurrent energy audits there as well. On campus, a number of organisations and clubs, including NSS, YRC, and student-run NGOs with volunteers, support clean-and-green programmes and events that promote the environment. These volunteers assist in awareness campaigns, environmental projects, and even plantation drives for high school and college students as well as the general public.
