Speakers: Nil

Report

(maximum 250 words)

The Department of Mechanical Engineering at Ramco Institute of Technology, in collaboration with the IE(I) Mechanical Chapter, successfully organized an “Online Aptitude Quiz” from November 16 to 18, 2024. The event aimed to enhance the analytical and problem-solving skills of students, fostering their readiness for competitive examinations and industrial challenges. It drew participation from a total of 125 students belonging to the first and second-year Mechanical Engineering programs, showcasing their enthusiasm for skill development and academic excellence.

The quiz, conducted online, included a variety of aptitude questions covering logical reasoning, quantitative skills, and verbal ability. The event provided a platform for students to assess their aptitude levels, identify areas for improvement, and gain confidence in tackling real-world problems.

The program was coordinated by Mr. S. Valai Ganesh, Assistant Professor (Selection Grade) of the Mechanical Engineering Department, who ensured the smooth execution of the event. Supporting him were student coordinators, including Mr. V. Suryakumar, a final-year Mechanical Engineering student, and second-year students Mr. B. Shanmugapandian, Ms. P. Lisha Bharathi, and Mr. P. Surya Prakash. Their teamwork and dedication significantly contributed to the success of the event.

This initiative by the department exemplifies its commitment to holistic student development by blending academic learning with essential skill-building activities. Participants appreciated the opportunity to engage in such an intellectually stimulating exercise. The event concluded with positive feedback, reinforcing the importance of organizing such programs to prepare students for future challenges.
