The Department of Mechanical Engineering, in collaboration with the IE(I) Mechanical Chapter, successfully organized a "Group Discussion" event on October 19, 2024. This engaging session provided a valuable platform for students to develop their critical thinking, communication, and teamwork skills. The event witnessed the active participation of 12 students from various years of the mechanical engineering program, all eager to engage in thoughtful discussions on contemporary topics related to engineering and technology.

Dr. V. Sivakumar, Professor in the Department of Mechanical Engineering, served as the jury, bringing his vast experience and expertise to guide and evaluate the students. His insightful feedback helped the participants understand their strengths and areas for improvement, offering them practical advice to enhance their debating and analytical skills. Mr. S. Valai Ganesh, Assistant Professor (Senior Grade) in Mechanical Engineering, played a pivotal role as the faculty coordinator, ensuring the event was well-organized and that each participant had a rewarding experience. He meticulously oversaw the arrangements and coordinated efforts to make the program a success.

In addition, Mr. V. Suryakumar, a final-year mechanical engineering student, served as the student coordinator, facilitating smooth interactions and assisting with the overall management of the event. His involvement demonstrated exemplary leadership, making the session both dynamic and well-structured. This group discussion event was a testament to the department's commitment to providing holistic learning experiences that prepare students for real-world challenges.
